

WASHaLOT 3.0

Group Washing Facility

Handwashing with soap is the single most effective way to prevent infectious diseases. Regular handwashing, specifically after using the toilet and before eating should be part of a daily routine in everyone's life. Schools, kindergardens, day care centers, hospitals, bus-stations, canteens are public places, where handwashing should be made possible for many people at the same time.

FEATURES

The WASHaLOT 3.0 is a prefabricated system, which can accommodate handwashing, toothbrushing, feetwashing for up to 20 people at the same time.

Allow groups of users to perform hygiene activities either together or individual due to individual water outlets.

The water outlets are designed to release water only when manually touched and thereby reduce water consumption.

One pipe filling carries up to 28 litres of water and will accommodate about 150 handwashing activities.

The water carrying pipe can be connected to a piped water supply or can be filled manually.

Easy operation & maintenance due to wide openings at both sides and at the bottom on the pipe.

TECHNICAL DETAILS

Dimensions: Length 300cm

Materials used: HDPE Pipe (Outside Diameter 110mm or 125mm), Stainless Steel Outlets

Number of Outlets: 10
