

NOVEMBER 2022

# Pandemic Preparedness and Response and the Role of the Private Sector

**FIT FOR  
SCHOOL**

# The Context

---

- COVID-19 pandemic takes over the globe
- Overwhelming amount of news and information
- Various support and response initiatives happening in-country
- Low and middle-income countries are the most severely affected

# Hygiene and Behavior Change Coalition (HBCC) Overview

---

- Aims to tackle COVID-19 through a coalition of partners that are well-positioned to mount a **rapid response on an unprecedented scale**
- Focused on hygiene and behavior change interventions to improve both **personal and environmental hygiene**

# HBCC Network of Partners

---

# Main Challenges for Schools

---

- Overwhelming complexity of guidelines released by national COVID-19 Task Force to be implemented for safe school reopening
- Lack of confidence of MoE to re-open schools and hesitancy to take this huge responsibility
- Translating complex guidelines into actionable posters and checklists

# Our Approach to support Ministries of Education

Compilation of relevant administrative orders, policies, and guidelines on safe school reopening

Translation of global and national guidelines to school level interventions / action points

Development of checklists for specific locations within the school to guide school heads, teachers & students

**CHECKLIST SCHOOL ENTRANCES**

**DAILY CHECK**

ARE THE SURVIVANCE & PROTECTIVE MEASURES IN PLACE?

# Our Work during the Pandemic

---

## Support an MoE-led scale-up with suitable tools

- Integration of developed material and processes into existing systems and structures
- Capacity development at scale (orientation videos and massive open online course)
- Integration of vaccination/immunization

## Private Sector Perspective

# Thank you!

---
